				NEGATIVE REPORT BLOOD SAMPLE			
Date and Time Collected 08/31/16 00:00		Date Entered 08/31/16		Date and Time Reported		Physician Name	Physician ID

Tests Ordered							
Lyme (B. burgdorferi) PCR							

TESTS	RESULT	FLAG	UNITS	REFERENCE INTERVAL	LAB
Lyme (B. burgdorferi) PCR No B. burgdorferi DNA Detected.	Negative			Negative	01

A negative PCR result for Borrelia burgdorferi on a blood sample does not eliminate the possibility of Lyme disease. CDC recommends that two-tiered serological testing in conjunction with clinical evaluation be used as the primary method of diagnosis.

This test was developed and its performance characteristics determined by LabCorp. It has not been cleared or approved by the Food and Drug Administration. The FDA has determined that such clearance or approval is not necessary.
